

■ UK Offers 75 Fully-Funded Scholarships for Indian Students

In celebration of India's 75th anniversary of independence, the UK government has partnered with leading businesses in India to offer 75 fully-funded scholarships for Indian students to study in Britain from September this year. In a statement, the British High Commission (BHC) said, this is the highest number of fully-funded scholarships given for the one-year master's programme to date. Companies like HSBC, Pearson India, Hindustan Unilever, Tata Sons and Duolingo are supporting this special initiative. The programmes on offer include Chevening scholarships for a one-year master's programme, with the opportunity to study any subject at any recognised UK university. Further, the British Council in India is offering at least 18 scholarships for women in science, technology, engineering and mathematics (STEM) covering over 12,000 courses across more than 150 UK universities. Along with these, the British Council is also offering six English scholarships.
