

## India to Resume e-Visa Facility for UK Citizens

India is set to resume the e-Visa facility for the citizens of the United Kingdom travelling to the country. This move comes for the first time since the COVID-19 outbreak in March 2020. High Commissioner of India to UK, Shri. Vikram K Doraiswami, in a video tweet,

... said that the service will be made available to the citizens forthwith and the dates

will be announced shortly. The Indian High Commission in London updated, in a tweet, said that system upgrade is underway and the visa website will soon be ready to receive applications from UK citizens. Earlier in August, UK Immigration Statistics said that Indian nationals were issued the largest number of UK study, work, and visitor visas. India has now overtaken China as the largest nationality being issued sponsored study visas in the UK.
