### ■ **Abdel Fattah al-Sisi Secures Third Term as President of Egypt**

Egyptian President Abdel Fattah al-Sisi has won a decisive victory, securing a third six-year term with 89.6% of the votes. The election, held over three days, saw three candidates challenging Mr. Sisi. As he begins his new term, Mr. Sisi faces immediate priorities, including tackling near-record inflation, addressing a chronic foreign currency shortage and managing spillover effects from the conflict between Israel and Gaza's Hamas rulers. Political experts anticipate a focus on stabilising the economy and navigating challenges arising from the regional conflict.
