

■ Global Partnership on AI Adopts New Delhi Declaration for Inclusive Development

The Global Partnership on Artificial Intelligence (GPAI) Summit, hosted in New Delhi, saw unanimous approval of the New Delhi Declaration by all 29 member nations. The declaration commits to collaborative AI development in healthcare and agriculture, with a special focus on

including the Global South. The declaration emphasises a global framework for AI trust and safety. India has proposed to host the GPAI Governance Summit to finalise principles for safe and trusted AI. GPAI aims to be a pivotal force in shaping the future of AI, ensuring benefits and solutions reach all corners of the globe.
