■ Dixon Technology's New Factory in Noida to Enhance Local Smartphone Ecosystem

Union Electronics and IT Minister Shri Ashwini Vaishnaw inaugurated Dixon Technology's latest manufacturing facility in Noida, Uttar Pradesh, a move that is expected to substantially enhance the local smartphone ecosystem. The Minister announced that the new Dixon factory is expected to generate 5,000 job opportunities, crediting the development to the government's production-linked incentive (PLI) scheme. He highlighted the importance of manufacturing high-quality products and commended the encouraging growth of India's design and component manufacturing ecosystem.
