■ Global Fisheries Conference India 2023 Concludes Successfully in Ahmedabad

The Global Fisheries Conference India 2023 wrapped up on November 22, 2023 in Ahmedabad, advocating for increased technological innovation and adoption to propel the startup and entrepreneurial ecosystem within the country's fisheries sector.

With over 14,000 participants including State Fisheries ministers, Ambassadors, Global Fisheries scientists, policymakers, and investment bankers, the conference featured a comprehensive agenda, comprising technical, industry connect, and government-to-government sessions, fostering collaboration and knowledge exchange. Collaboration among start-ups was identified as a key strategy. Solutions proposed included capacity-building programmes and financial assistance to encourage larger roles for women, and upgrading cold chain infrastructure to ensure safe and nutritious seafood.
