ANDT and NISST Forge Partnership to Offer Job-Oriented Training Programs with Hybrid Learning Options

The Advanced Institute of Nondestructive Testing & Training (ANDT) and the National Institute of Secondary Steel Technology (NISST), established by the Ministry of Steel, have jointly unveiled comprehensive training and certification programs tailored for students and job aspirants. Aimed at cultivating essential skills for high-demand global industries, the initiative introduces an online entrance examination with registrations commencing on November 5 and concluding on November 30. The examination is scheduled for December 3. Classes are set to commence on January 8 2024, adopting a classroom format for students and a hybrid model (online theory and offline practical) for working professionals. The program, inclusive in its approach, targets candidates with qualifications ranging from 10th to M.Tech.
