

■ **Ministry of Education to Partner with Meta to Empower Micro Entrepreneurs with Digital Skills**

The Ministry of Education and Skill Development & Entrepreneurship has launched a three-year partnership with American multinational technology conglomerate Meta to take Digital Skilling to the grassroots, seamlessly connecting students, youth, workforce and micro-entrepreneurs, with futuristic technologies. Under the initiative named "Education to Entrepreneurship" Meta will provide

digital marketing skills to 5 lakh entrepreneurs over the next three years, catering to budding and existing entrepreneurs in seven regional languages. The initiative aids India's vision of becoming a skill capital of the world.
