

■ President Stresses Importance of Fostering Scientific Temper for Progress

President Smt. Droupadi Murmu, while addressing the 10th convocation of Guru Ghasidas Vishwavidyalaya, in Bilaspur, Chhattisgarh, emphasised the importance of fostering scientific temper for progress. The President applauded the establishment of the Accelerator Based Research Centre at the university and expressed confidence in its potential for groundbreaking research. Highlighting the recent success of Chandrayaan-3, she commended India's global recognition in nuclear and space achievements. Encouraging students to attain high-level competence and contribute to societal development, she also emphasised the enduring message of Guru Ghasidas, promoting equality, especially among tribal communities in the area.
