■ India's First Indigenous Nuclear Plant in Gujarat Commences Full Capacity Operations

India's first indigenously built nuclear power plant unit in Gujarat has commenced full-capacity operations. Prime Minister Shri Narendra Modi extended his congratulations to the dedicated team of scientists and engineers responsible for this achievement, hailing it as "yet another milestone." In a social media message, he announced, "India attains another significant milestone as the first and largest indigenous 700 MWe Kakrapar Nuclear Power Plant Unit-3 in Gujarat begins full-capacity operations."
