

Pradhan highlighted the importance of including technology in the educational system. The minister also inaugurated a Vidhya Samiksha Kendra on the occasion.

■ India Unveils World's First BS-6 Stage-II Electrified Flex Fuel Vehicle Prototype

India has taken a significant step in the realm of environmentally friendly vehicles with the unveiling of the world's first BS-6 Stage-II Electrified Flex Fuel Vehicle prototype. Developed by Toyota Kirloskar Motor, this innovative vehicle combines a flex fuel engine with an electric powertrain, offering enhanced fuel efficiency and the ability to use higher blends of ethanol beyond 20%. Shri Hardeep Singh Puri, Minister of Petroleum & Natural Gas and Housing & Urban Affairs, highlighted the potential of Flex Fuel Vehicle Technologies, emphasising their capacity to reduce reliance on petrol by promoting the use of ethanol. The prototype adheres to India's stringent emission standards and is set to undergo refinement, homologation, and certification processes.
