■ Digital Healthcare Effective Preventive Tool Against Lifestyle Disorders

Digital healthcare can be an effective preventive tool against a host of diseases ranging from lifestyle disorders like Type 2 Diabetes Mellitus to infectious diseases like Covid. This was stated by the Union Minister of State (Independent Charge) Science & Technology Dr Jitendra Singh on August 24 at the 3rd Healthcare Leaders Summit in New Delhi on the topic of "India's Digital Health Roadmap".

roadmap for Healthy India for accessible and affordable healthcare". The minister added, PPP model is the need of the hour in healthcare sector to put an end to the urban-rural dichotomy. He said, "Preventive healthcare and widespread mass screening will help achieve our economy the expected rate of growth set out by PM Modi".
