India AI and Meta Join Forces to Advance AI & Emerging Technologies

'India AI,' an initiative under Digital India Corporation, and Meta, India, signed a Memorandum of Understanding (MoU) to foster advancements in AI and Emerging Technologies. The MoU, signed by 'India AI' CEO Shri Abhishek Singh and Meta's Director & Head of Public Policy, Shri Shivnath Thukral, aims to establish a collaboration framework for joint research and development endeavors. They will explore building datasets in Indian languages to enable translation and large language models, prioritising low-resource languages to foster social inclusion and improve government services. The partnership will make Meta's open-source AI models available for use within the Indian AI ecosystem. Additionally, the collaboration seeks to enhance AI compute resource accessibility for researchers and startups.
