■ NITI Aayog Unveils Tools for Tracking India's Clean Energy Transition Journey

INDIA CLIMATE & ENERGY DASHBOARD

Energy Climate & Environment

NITI Aayog has launched two cutting-edge tools: the India Climate Energy Dashboard (ICED) 3.0 and the revamped India Energy Security Scenarios (IESS) 2047 V3.0. The ICED 3.0 offers real-time data on the energy sector and climate, featuring over 500 parameters and 2000 infographics for a comprehensive view of India's energy landscape. Meanwhile, the user-friendly IESS 2047 enables the assessment of various green energy policies' integrated impact, supporting net-zero pathways until 2047. Both tools promise to facilitate the nation's sustainable energy transition journey.
