## ■ India Calls for Collective Efforts to Nurture Sustainable Startup Ecosystems

भारत 2023 INDIA

The Startup20 Shikhar event held in Gurugram, Haryana, showcased India's commitment to fostering sustainable startup ecosystems, encouraging global cooperation, and reinforcing the crucial role startups play in addressing pressing global challenges. As the event concluded on July 5, the message of collective efforts and support resonated, fostering hope for a vibrant and prosperous global startup community. On the occasion, Commerce and Industry Minister, Shri Piyush Goyal, acknowledged India's significant economic scale and market potential, crediting these factors for the thriving success of startups within the country.
