### ■ **G20 Sustainable Finance Working Group Explores Green Technology Deployment and Partnerships**

The G20 Sustainable Finance Working Group has called for focused policy measures and financial instruments to expedite the development and implementation of green and low-carbon technologies. The latest meeting of the Working Group discussed the importance of partnerships at all levels in addressing climate change goals, emphasising clean energy and ecological concerns for both developing and developed nations. Recognising the role of public finance in increasing climate investments, participants suggested enhancing private finance through policy, regulatory measures, and market incentives in order to create a conducive environment for the innovation and adoption of low-carbon technologies.
