### ■ **GE Aerospace and HAL Partner to Produce Fighter Jet Engines for IAF**

US aerospace major GE Aerospace has signed a Memorandum of Understanding (MoU) with Hindustan Aeronautics Limited (HAL) to manufacture fighter jet engines for the Indian Air Force (IAF). Under the agreement, GE Aerospace's F414 engines will be co-produced in India for IAF's Light Combat Aircraft Mk2. As part of an ongoing development program for LCA Mk2, eight F414 engines have already been delivered by GE Aerospace. Additionally, GE will continue its collaboration with the Indian government on the engine program for the Advanced Medium Combat Aircraft Mk2.
