

## PM Modi Calls for Adoption of Digital Technologies for Global Food Security

The G20 Agriculture Ministers Meeting unanimously adopted the 'Deccan G20 High-level Principles on Food Security and Nutrition' in a meeting at Hyderabad on June 16. It embodies the G20 members' shared commitment to foster coordination and facilitate a united approach towards alleviating global hunger and malnutrition while promoting sustainable growth.

The meeting also welcomed India's millet initiative *MAHARISHI* and agreed to promote sustainable agriculture and inclusive agri-value chains. Addressing the meeting via video link, Prime Minister Shri Narendra Modi stressed the importance of empowering farmers with digital and innovative technologies to ensure global food and nutritional security. PM Modi also announced the establishment of a centre of excellence for millet research and technology. He called for a collective and sustainable approach to global food security, urging delegates to strengthen the global fertiliser supply chain and focus on soil health and crop yield.
