■ Air India Conducts First 'All Women' Haj Flight

Air India Express, India's international budget airline, made history on June 8 by successfully operating India's first all-women Haj flight, complementing the Haj Committee of India's initiative to have exclusively female passengers on board. The flight took off from Kozhikode to Jeddah in Saudi Arabia carrying a total of 145 women pilgrims. Leading the crew was Captain Kanika Mehra and First Officer Garima Passi skillfully piloted the aircraft throughout the flight. Air India has consistently advocated for gender equality in the workplace and boasts a workforce consisting of 50 per cent women, setting an example for the entire aviation industry.
