### Innovators Gather at WorldAI Show in Dubai, Join Hands to Tackle Global Issues

The WorldAI Show, a highly anticipated global event dedicated to Artificial Intelligence (AI), was held in Dubai from June 07-08. The show highlighted cutting-edge AI technologies and solutions from leading companies who exhibited impressive advancements in areas such as healthcare, finance, transportation, and smart cities. The show also provided a platform

for thought-provoking discussions on AI's societal impact and future applications. Among the Indian participants who showcased their AI technologies was Aliriza Group, a successful example of leveraging Mudra loans. The group presented RiSa, an AI-enabled interactive robot designed to engage with humans socially and communicatively. RiSa robots prioritise enhancing human well-being by providing emotional support and companionship. The event also fostered collaborations between academia, industry, and policymakers resulting in numerous partnerships, with organisations joining forces to tackle global issues using AI-driven solutions.
