## Deliberations held on data catalysing India's Semiconductor Ecosystem at Semicon India FutureDESIGN Roadshow

Minister of State for Electronics and Information Technology, Shri Rajeev Chandrasekhar launched the third Semicon India FutureDESIGN Roadshow at IIT Delhi on 12th May 2023. The event served as a forum for global semiconductor leaders to exchange their visions on catalysing the semiconductor ecosystem

in India. The Minister pointed out that India's semiconductor sector, expected to reach US\$ 110 billion worth by the year 2030, offers wide ranging opportunities. He added that the government has announced Rs. 76,000 crore incentives for the semiconductor manufacturing units in the country to fulfill the vision of 'Atmanirbhar Bharat.' The event was part of the series of roadshows being organised by the Ministry of Information and Technology across the country with the aim to promote semiconductor designing, and promoting a culture of co-development and joint ownership of intellectual property with active industry participation.
