9. Read the passage given below and respond to the questions given below. Ecological conservation is a pressing global concern. Our planet's delicate ecosystems are under constant threat from human activities, such as deforestation, pollution, and climate change. The consequences of these actions are far-reaching, affecting not only the environment but also human and animal life. One essential aspect of ecological conservation is protecting biodiversity. Every species, no matter how small or seemingly insignificant, plays a crucial role in maintaining the balance of nature. Loss of biodiversity can disrupt food chains, impact agriculture, and lead to the spread of diseases. Another critical element is sustainable resource management. Ensuring that we use natural resources responsibly and efficiently is essential for the preservation of our ecosystems. This includes reducing waste, implementing renewable energy sources, and promoting sustainable farming practices. 1. State one of the major threats to ecological conservation mentioned in the passage. 2. State why protecting biodiversity is important in ecological conservation. 3. List which all sustainable resource management are included in ecological conservation. 4. State how education and advocacy contribute to ecological conservation efforts. 5. Tell the ultimate goal of embracing ecological conservation, as mentioned in the passage. (5)
