

BRAINWARE UNIVERSITY

Term End Examination 2024-2025

Programme - B.Sc. Nursing-2023/B.Sc. Nursing-2024

Course Name - Nursing Foundation I & II Incl Health Assessment module (Theory) Course Code - N-NF(I&II) 125 (T)

(Semester II)

Full Marks: 75 Time: 3:0 Hours

[The figure in the margin indicates full marks. Candidates are required to give their answers in their own words as far as practicable. Write answer of Section - A and Section -B in separate Answer booklet.]

> Section: A Marks: 37

Group-A (Multiple Choice Type Question)

8 x 1=8

•	Choose the correct alternative from the fo	ollowing:
(i)	Identify the principles of effective commun	nication
	a) Have clarity of ideasc) Have adequacy of messageTell the most effective way to prevent inference	b) Use two-way communication d) All of these
	a) Covering your mouth when you coughc) Wearing facemaskTell the balance refers to the individual's a	d) Avoiding sharing drinks or foods
	a) Line of gravityc) line of shapeApply a therapeutic communication techn	b) Line of authority d) line of control
	 a) False reassurance c) Active listening Explain the most important element in est patient relationship. 	b) Giving adviced) Changing the subject
(vi)	a) Empathy c) Technical skill Identify most common medico-legal disch	b) Noise d) Silence arge type.
	a) Planned c) Referral	b) LAMA d) Abscond

(vii) Apply patient teaching before discharge.

a) Diet, medication, follow up

b) Admission rules

c) Room charges

d) OPD visits

(viii) Determine optimum hospital room temperature.

a) 10-15°C

b) 16-20°C

c) 20-25°C

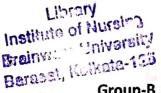

d) 30-35°C

Colony (milen)
Institut
Seanus (main)
Beanus, Lecana

Group-B (Long Answer Type Questions)

1 x 15=15

/I one	Answer Type Questions)	17-5
(EOII)	,	hatunge (15)
2. Define fever, State the causes of fe	ever. Explain the stages of fever. Classify t	ne types (15) +3+5+5)
- F Friday Milli Manifella		
	Places of BP. Discuss regulation of BP. D	escribe (15)
Define blood pressure. Explain ph factors affecting BP.	OR ysiology of BP. Discuss regulation of BP. D (24	-3+5+5)
•	Group-C	2 x 5=10
(Short	t Answer Type Questions)	2 X 3-10
No. of the	ands with a diagram.	(5)
3. Illustrate Maslow's hierarchy of n	ears delivery systems.	(5)
4. Explain the importance of health	OR	
Differentiate between primary, se	econdary, and tertiary prevention.	(5)
	Group-D hort Answer Type Questions)	2 x 2=4
(Very Si	nort Answer Type Questions,	
~	h. L. audamiont	(2)
5. Give two examples of reusable ho	ospital equipment.	(2)
6. Differentitae barrier nursing and	reverse partier fluranis.

7. Choose the correct alternative (i) Tell the presence of mucus or the which aspects of respiratory full a) Diffusion (i) airway patency	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation	4 x 1=4
7. Choose the correct alternative (i) Tell the presence of mucus or the which aspects of respiratory further a) Diffusion c) airway patency (ii) Explain the Factors like skin piges.	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities	4 x 1=4
 7. Choose the correct alternative (i) Tell the presence of mucus or twhich aspects of respiratory full a) Diffusion c) airway patency (ii) Explain the Factors like skin pig affect the accuracy of which respiratory 	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities espiratory monitoring tool	4 x 1=4
 7. Choose the correct alternative (i) Tell the presence of mucus or to which aspects of respiratory for a) Diffusion (i) airway patency (ii) Explain the Factors like skin pig affect the accuracy of which real Arterial blood gas analysis (i) Pulse oximeter 	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities espiratory monitoring tool b) Chest X-ray d) Capnography	4 x 1=4
 7. Choose the correct alternative which aspects of respiratory for a) Diffusion c) airway patency (ii) Explain the Factors like skin pigaffect the accuracy of which real Arterial blood gas analysis c) Pulse oximeter (iii) Identify from the following the 	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities espiratory monitoring tool b) Chest X-ray	4 x 1=4
 (i) Tell the presence of mucus or twhich aspects of respiratory fuel a) Diffusion (ii) Explain the Factors like skin pig affect the accuracy of which real Arterial blood gas analysis (iii) Pulse oximeter (iii) Identify from the following the depends on the function of 	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities espiratory monitoring tool b) Chest X-ray d) Capnography	4 x 1=4
 (i) Tell the presence of mucus or twhich aspects of respiratory fuel a) Diffusion (ii) Explain the Factors like skin pigaffect the accuracy of which real Arterial blood gas analysis (iii) Pulse oximeter (iii) Identify from the following the depends on the function of a) Alveolar ventilation 	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities espiratory monitoring tool b) Chest X-ray d) Capnography at oxygen transport in the body primarily b) hemoglobin d) diaphragm	4 x 1=4
 (i) Tell the presence of mucus or twhich aspects of respiratory for a) Diffusion (ii) Explain the Factors like skin pigaffect the accuracy of which real Arterial blood gas analysis (iii) Identify from the following the depends on the function of a) Alveolar ventilation (iv) solve from the following that 	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities espiratory monitoring tool b) Chest X-ray d) Capnography at oxygen transport in the body primarily b) hemoglobin	4 x 1=4
 (i) Tell the presence of mucus or twhich aspects of respiratory fuel a) Diffusion (ii) Explain the Factors like skin pigaffect the accuracy of which real Arterial blood gas analysis (iii) Pulse oximeter (iii) Identify from the following the depends on the function of a) Alveolar ventilation 	Group-A tiple Choice Type Question) e from the following: foreign objects in the airway primarily affeunction. b) oxygen transport d) oxygen saturation gmentation, nail polish, or cold extremities espiratory monitoring tool b) Chest X-ray d) Capnography at oxygen transport in the body primarily b) hemoglobin d) diaphragm	4 x 1=4

Group-B

(Long Answer Type Questions)

1 x 15=15

8. Define oral administration. List equipment required for oral administration. (15)Describe the procedure with nursing considerations. Discuss contraindications of oral route administration. (2+3+5+5)

OR

Define vial and ampoule. Describe differences between them. Explain procedure of (15) preparing injectable medications from vials and ampoules. Discuss safety measures to prevent contamination. (2+3+5+5)

Group-C (Short Answer Type Questions)

 $3 \times 5 = 15$

9. Describe the nursing care for the patient with chest drainage.

(5)

10. Define parenteral nutrition. State two indications for TPN. (2+3)

(5)

11. Explain about General adaptation syndrome

(5)

Explain the types of crisis intervention

(5)

Group-D

(Very Short Answer Type Questions)

 $2 \times 2 = 4$

12. List the golden rules of giving injections

(2)

13. Mention two benefits of humidification.

(2)
