

- a) First International Health Promotion Conference
 b) Australian Better Health Commission
 c) Alma Ata
 d) Health for All by the Year 2000
- (viii) Identify the name of the National Nutritional Programs ?
- a) Midday Meal Programme
 b) National Nutritional Anemia Prophylaxis Programme
 c) Only Midday Meal Programme
 d) Both (Midday Meal Programme) and (National Nutritional Anemia Prophylaxis Programme)
- (ix) Choose A study in which children are randomly assigned to receive either a newly formulated vaccine or the currently available vaccine, and are followed to monitor for side effects and effectiveness of each vaccine, Which of the following answer is explaining about the statement ?
- a) Experimental
 b) Observational
 c) Clinical trial
 d) Case-control
- (x) Identify Medical Laboratory Scientists play a crucial role in which phase of the healthcare process?
- a) Diagnosis and treatment
 b) Billing and insurance
 c) Hospital maintenance
 d) Patient transportation
- (xi) Omit Which of the following diseases is caused by a virus?
- a) Tuberculosis
 b) Malaria
 c) Influenza
 d) Lyme disease
- (xii) Select In histopathology, what does the term "immunohistochemistry" refer to?
- a) A technique to study the history of ancient civilizations
 b) A method for staining tissues with natural dyes
 c) The use of antibodies to identify specific proteins in tissue sections
 d) A process to detect radioactive isotopes in tissue samples
- (xiii) Tell which disease is communicable?
- a) AIDS
 b) CANCER
 c) Osteoporosis
 d) ulcer
- (xiv) Choose Which of the following factors is not a part of the agent-host-environment model in the natural history of disease?
- a) Agent
 b) Pathogenesis
 c) Host
 d) Treatment
- (xv) Choose In the natural history of infectious diseases, what is the term for the process by which the pathogen is transmitted from one host to another?
- a) Incubation
 b) Pathogenesis
 c) Epidomology
 d) Immunization

Group-B

(Short Answer Type Questions)

3 x 5=15

2. Define What is the primary purpose of bio-safety measures in hematology laboratories? (3)
3. Illustrate what is record keeping in medical terminology ? (3)
4. Define community mobilizer? (3)
5. Describe the basic principle of Homeopathic treatment? (3)
6. Explain the role of Medical clinical Laboratory science in Health Care? (3)

OR

Differentiate between Histology and Histopathology ? (3)

Group-C

(Long Answer Type Questions)

5 x 6=30

7. Summarize the concept of Radioactive waste management ? (5)
8. Describe AYUSH and different branches of AYUSH ? (5)
9. Define primary health care and primary care ? (5)
10. Write a note on immunization ? (5)
11. Prepare a chart illustrating communicable and non-communicable diseases? (5)
12. Explain the Purpose and different types of aseptic technique ? (5)

OR

Define What should be maintained in laboratory in order to confirm Bio-safety in Bio-safety (5)
in Histopathology ?
