

BRAINWARE UNIVERSITY

Term End Examination 2022

Programme – B.Sc.(ANCS)-Hons-2020/B.Sc.(ANCS)-Hons-2021/B.Sc.(ANCS)-Hons-2022

Course Name – Computer Fundamentals/Computer Fundamentals & Database

Course Code - BNCSC101

(Semester I)

Full Marks : 60

[The figure in the margin indicates full marks. Candidates are required to give their answers in their own words as far as practicable.]

Group-A

(Multiple Choice Type Question)

1 x 15=15

Time: 2:30 Hours

- Choose the correct alternative from the following :
- (i) Identify the full form of CPU
 - a) Computer Processing Unit
 - c) Central Processing Unit

- b) Computer Principle Unit
- d) Control Processing Unit
- (ii) Identify the option that instructs the computer hardware, what to do and how to do it
 - a) Hardware
 - c) Software

- b) Operating system
- d) Device driver
- (iii) Recall the previous command or action
 - a) Ctrl + C
 - c) Ctrl + U

- b) Ctrl + R
- d) Ctrl + Y
- (iv) Identify the smallest unit of data in a computer
 - a) Bit

b) KB

c) Nibble

- d) Byte
- (v) Identify the software used to manage and control the hardware components and allows interaction between the hardware and the other different types of software
 - a) Application software
 - c) Utility software

- b) System software
- d) Operating system
- (vi) Select the term used In database for the column
 - a) Relation
 - c) Tuple

- b) Attribute
- (vii) Choose the correct definition of Computer
 - a) Computer is a machine or device that can be programmed to perform arithmetical or logic operation sequences automatically
 - c) Computer is a programmable electronic device that stores, retrieves, and processes
- d) None of the above
- b) Computer understands only binary language which is written in the form of 0s & 1s
- d) All of the mentioned

LIBRARY Brainware University Barasat, Kolkata -700125

the data (viii) Choose the correct reason for CPU scheduling	b) larger memory sized systems	
(viii) Choose the correct reason to systems	d) none of the mentioned	
a) multiprogramming operating systems c) multiprocessor systems (N) Choose the number of levels in which the Arch (N)	tracture of the database can be viewed	
c) multiprocessor systems	Alexandra of the state of the s	
(N) Choose the number of the	d) one level	
a) two levels	are a presentation.	
a) two levels c) three level (x) Select the type of application that is used to cre	b) MS Powerpoint	
(X) select the tipe of the	d) JavA	
a) MS Excel c) MS Word (xi) Select the shortcut-key that is used to start a pr	resentation from the beginning in	
c) MS Word	esemanon	
PowerPoint	b) F11	
	d) Shift + F5	
a) F5 c) F7	ti) state (15	
c) F7 (xii) Select the term used to represent a half byte	A A ADDA do	
a) Byte	b) Nibble	
a) Bit	d) Word Size	
c) Bit (xiii) Select the option responsible for creating a pro-	cess from a program	
	6/ 116.6	
a) OS c) Internet	d) Firewall	
c) Internet (xiv) Solve and choose the correct option to remove	borders applied in cells	
	b) Open the list on Border tool in Form	nat Cell
 a) Choose None on Border tab of Format cells 	toolbar then choose first tool (none	
	d) None of above	
 c) Both of above (xv) Infer on the name of the key among the candid. 		
key	M Candidata Vaus	
a) Super Keys	b) Candidate Keys	
c) Alternate Keys	d) None of the above	
_	_	
(Short Answer 1	Type Questions)	$3 \times 5 = 15$
2. Explain Multithreading in CPU.		(3)
•		(0)
3. Explain PCB with block diagram.		(3)
·		(3)
4. Determine the Unary Relational Operations in Relat	tion Algebra	(3)
	non rigeora.	(3)
5. Describe the three levels of data abstraction.		, (5)
and the color of data abstraction.		(3)
-	in .	
Write the name of three innertals to the	R	
Write the name of three input devices and three o	utput devices.	(3)
•		1-1
Differentiate between Breeze		
Differentiate between RISC and CISC.		(3)
		(2)

1.99

	Group C (Long Answer Type Questions)	1 63-349 (64)
		(9)
y.	State conflict serialisability with example	(5)
18.	Explain Armstrong's Axioms	(9)
	What are UNION, MINUS, and INTERSECT commands in OBMS7 Illustrate.	
В.	What are Union, Minus, and Minus	(5)
10	Explain Multiprocessing with example:	47) (5)
11	Consider a relation. R (V, W, X, Y, Z) with functional dependencies: $(VW \rightarrow XI, Y \rightarrow Y, WI) \rightarrow XI$ consider a relation. R (V, W, X, Y, Z) with functional dependencies: $(VW \rightarrow XI, Y \rightarrow Y, WI) \rightarrow XI$ consider a relation. R (V, W, X, Y, Z) with functional dependencies: $(VW \rightarrow XI, Y \rightarrow Y, WI) \rightarrow XI$ consider a relation. R (V, W, X, Y, Z) with functional dependencies: $(VW \rightarrow XI, Y \rightarrow Y, WI) \rightarrow XI$ determine whether the given R is in which normal form? Explain with all the candidate key determine whether the given R is in which normal form? Explain with all the candidate key prime attribute, non-prime attribute.	
	OR	(5)
	11 - Longuiton? Explain with example.	
	What is serial and parallel execution? Explain with example,	(5)
	the given schedule 5 is conflict serializable or not	
1.7	 Check whether the given series s. Check whether the given series s. S R1(A) , R2(A) , R1(B) , R2(B) , R3(B) , W1(A) , W2(B) . Justify the answer. 	
	5 R1(A) , R2(A) , R1(B) , R2(B) , R3(B)	
	OR Write the differences between two level architecture and three level architecture.	(5)
	Write the differences of	

Explain a foreign key, and what is it used for.

LIBRARY Brainware University Barasat, Kolkata - 700125

(3)

Group-C (Long Answer Type Questions)	5 x 6=30
	(5)
7. State conflict serializability with example	10.0
	(5)
8. Explain Armstrong's Axioms.	
	(5)
9. What are UNION, MINUS, and INTERSECT commands in DBMS? Illustrate.	-
	(5)
10. Explain Multiprocessing with example.	
 Consider a relation- R (V, W, X, Y, Z) with functional dependencies- {VW → XY, Y → Y, Y → Y,	V, WX → YZ} (5) date keys,
OR	(5)
What is serial and parallel execution? Explain with example.	
12. Check whether the given schedule S is conflict serializable or not	(5)
12. Check whether the given	
12. Check Whether the 8 S:R1(A), R2(A), R1(B), R2(B), R3(B), W1(A), W2(B). Justify the answer.	
OR Write the differences between two level architecture and three level architect	ture. (5)
