

## **BRAINWARE UNIVERSITY**

**Term End Examination 2023** Programme - D.Pharm-2022 Course Name - Social Pharmacy -Theory Course Code - ER20-15T (Year I)

Full Marks: 80

Time: 3:0 Hours

[The figure in the margin indicates full marks. Candidates are required to give their answers in their own words as far as practicable.]

## Group-A

(Multiple Choice Type Question)

1 x 20=20

- 1. Choose the correct alternative from the following:
  - (i) Select the correct answer Pharmacoeconomics coind by
    - a) Townsend in 1886
    - c) Townsend in 1988
  - (ii) Describe Total Cost
    - a) Total Cost = Direct Cost + Indirect Cost + Intangible Cost
    - c) Total Cost = Indirect Cost + Intangible Cost
  - (iii) Select the full form of PHC
    - a) Primary Hospital Centres
    - c) Public Healthy Centres
  - - a) Directorate general of health service
    - c) Central council of health
  - (v) Select the full form of NACO
    - a) National AIDS Control Organisation
    - c) National AIDS Care Organisation
  - (vi) Select the full form of NCCP
    - a) National cancer control programme
    - c) National cancer control programme
  - (vii) Choose the following is a bacterial disease
    - a) Malaria
    - c) Tetanus

- b) Townsend in 1986
- d) Townsend in 1916
- b) Total Cost = Direct Cost + Indirect Cost
- d) Total Cost = Intangible Cost + Indirect Cost
- b) Primary Healthcare Centres
- d) Prime Human Centres
- (iv) Select that organisation is not included in the central level health system
  - b) Union ministry of health and family welfare
  - d) Health and family welfare service
  - b) National AIDS Cure Organisation
  - d) National AIDS Central Organisation
  - b) National cancer cure programme
  - d) National cancer care programme
  - b) Athlete\'s foot
  - d) Glaucoma

a) Viral disease (jx) Choose the correct organ for polio virus replication a) Lungs (jx) Identify contraception methods are: a) IUD b) Sterilisation d) All of the above (k) Identify the percentage of nitrogen in atmosphere is a) 0.12 c) 0.21 b) 0.78 d) 0.87 c) 0.11 c) 0.01 c) Diaphragm d) All of the above (k) Identify the percentage of nitrogen in atmosphere is a) 0.12 c) 0.21 b) 0.78 d) 0.87 c) 0.21 c) 0.21 b) Pesticides c) Nutraceuticals d) None of these (kiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani (xv) Choose the causative agent caused for measles a) H1N1 virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Firends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population d) Statistical study of population c) Statistical analysis of human population d) Statistical report of human population d) Statistical report of human population d) Statistical study of human population d) Statistical study of population c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 × 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate 4. Describe in pollutants (3) 4. Describe in pollutants (3) 6. Describe in pollutants	(viii) Determine the rables is a	Bansa Zalicia-700129	1
(ixi) Choose the correct organ for polio virus replication a) Lungs b) Liver c) GIT d) None of these (x) Identify contraception methods are: a) IUD b) Sterilisation c) Diaphragm d) All of the above (xi) Identify the percentage of nitrogen in atmosphere is a) 0.12 b) 0.78 d) 0.87 (xii) Choose the substance used to kill insect,fungi, bacteria that feed on crop is a) Fertilizers b) Pesticides d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis d) Absestosis c) Diabetes d) COPD (xivi) Choose the virus caused for chicken pox a) Varicella zoster b) Streptococcus c) Clostridium tetani d) None of these (xiv) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents b) Mass media c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population c) Statistical study of population a) 1-10 days c) 1-14 days d) 1-2 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method b) Natural family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10-30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)	a) Viral disease	b) Bacterial disease	
a) Lungs c) GIT d) None of these (x) Identify contraception methods are: a) IUD c) Diaphragm d) All of the above (xi) Identify the percentage of nitrogen in atmosphere is a) 0.12 c) 0.21 d) 0.87 (xii) Choose the substance used to kill insect,fungi,bacteria that feed on crop is a) Fertilizers b) Pesticides c) Nutraceuticals d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani (xiv) Choose the causative agent caused for measles a) H1N1 virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xi) Identify the cuctions of State Health Directorate  (xi) Describe the functions of State Health Directorate			
c) GIT (x) Identify contraception methods are: a) IUD c) Diaphragm (d) All of the above (xi) Identify the percentage of nitrogen in atmosphere is a) 0.12 b) 0.78 d) 0.87 (xii) Choose the substance used to kill insect,fungi,bacteria that feed on crop is a) Fertilizers b) Pesticides d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis b) Asbestosis d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster b) Streptococcus d) None of these (xv) Choose the causative agent caused for measles a) HIN1 virus d) None of these (xvi) Choose the causative agent caused for measles a) HIN1 virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents b) Mass media d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days d) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)	(ix) Choose the correct organ for polio virus replic	cation	
(x) Identify contraception methods are: a) IUD b) Sterilisation d) All of the above (xi) Identify the percentage of nitrogen in atmosphere is a) 0.12 c) 0.21 d) 0.87 (Xii) Choose the substance used to kill insect,fungi,bacteria that feed on crop is a) Fertilizers c) Nutraceuticals d) None of these (Xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (Xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (Xv) Choose the causative agent caused for measles a) H1N1 virus c) RNA paramyxo virus d) None of these (Xvi) Identify the component that help to learnt life style a) Parents c) Friends (Xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population c) Statistical method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30 3. Describe the functions of State Health Directorate (Xi) Describe the functions of State Health Directorate		The state of the s	
a) IUD c) Diaphragm d) All of the above (xi) Identify the percentage of nitrogen in atmosphere is a) 0.12 c) 0.21 b) 0.78 d) 0.87 c) 0.21 (xii) Choose the substance used to kill insect,fungi,bacteria that feed on crop is a) Fertilizers b) Pesticides d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xvi) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days d) 1-4 days (xix) Calendar method an be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30 2. Describe waste collection method 3. Describe the functions of State Health Directorate	V 115 11 11 10 0	d) None of these	
c) Diaphragm (xi) Identify the percentage of nitrogen in atmosphere is a) 0.12 b) 0.78 c) 0.21 b) 0.78 c) 0.21 b) 0.78 d) 0.87  (xii) Choose the substance used to kill insect,fungi,bacteria that feed on crop is a) Fertilizers c) Nutraceuticals d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population c) Statistical analysis of human population c) Clenetical method d) 1-10 days c) 1-14 days d) 1-18 days d) 1-24 days (xix) Calendar method can be identify as a) Behavioural method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xii) Describe the functions of State Health Directorate	(x) Identify contraception methods are:		
(xi) Identify the percentage of nitrogen in atmosphere is a) 0.12 b) 0.78 c) 0.21 (xii) Choose the substance used to kill insect,fungi,bacteria that feed on crop is a) Fertilizers b) Pesticides c) Nutraceuticals d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis b) Asbestosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster b) Streptococcus d) None of these (xvi) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents b) Mass media c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method d) Hormonal contraceptives (xxi) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xii) Chemical the functions of State Health Directorate		12.	
a) 0.12 c) 0.21 d) 0.87 (xii) Choose the substance used to kill insect, fungi, bacteria that feed on crop is a) Fertilizers c) Nutraceuticals d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xiv) Choose the causative agent caused for measles a) H1N1 virus c) RNA paramyxo virus d) None of these (xivi) Identify the component that help to learnt life style a) Parents b) Mass media c) Friends (xvii) Demography can be define as a) Statistical study of human population c) Statistical study of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method b) Natural family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30 2. Describe waste collection method 3. Describe the functions of State Health Directorate  (3) 3	and the second s	A STATE OF THE STA	
c) 0.21 (xii) Choose the substance used to kill insect,fungi,bacteria that feed on crop is a) Fertilizers c) Nutraceuticals d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1M1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) I Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days d) 1-18 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)		here is	
(xii) Choose the substance used to kill insect, fungi, bacteria that feed on crop is a) Fertilizers c) Nutraceuticals d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster b) Streptococcus d) None of these (xvi) Choose the causative agent caused for measles a) H1M1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvii) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xviii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xiii) Select the following which is not an occupational disease d) None of these d) Natural family planning method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30			
a) Fertilizers c) Nutraceuticals d) None of these (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xii) Capper T method con State Health Directorate (3)  A) Describe the functions of State Health Directorate  (3)  A) Describe the functions of State Health Directorate  (5) CAPD  (6) A) All of these (7) All of these (8) All of these (9) All of thes	THE RESIDENCE OF THE PROPERTY		
c) Nutraceuticals (xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes b) Asbestosis d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method b) Natural family planning method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (xix) Copper T methodions of State Health Directorate (3)			
(xiii) Select the following which is not an occupational disease a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus b) Mass media c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xix) Capper T method can be identify as 3. Describe the functions of State Health Directorate  (3)			
a) Silicosis c) Diabetes d) COPD (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends b) Mass media c) Friends c) Friends b) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 × 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xx) Copper T method cond be identify as 3. Describe the functions of State Health Directorate  (33			
c) Diabetes d) COPD  (xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical study of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10-30 2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xv) Choose the virus caused for chicken pox d) None of these d) None of these b) Retro virus d) None of these b) Mass media d) All of these b) Mass media d) All of these b) Statistical study of population d) Statistical study of population d) Statistical study of population d) Statistical report of human population d) Statistical study of population e) Statistical study of population d) Statistical study of population e) Stat			
(xiv) Choose the virus caused for chicken pox a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xix) Choose the causative agent caused for measles d) None of these (None of these			
a) Varicella zoster c) Clostridium tetani d) None of these (xv) Choose the causative agent caused for measles a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical study of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xx) Chapter Agents and State Health Directorate (xx) Capper Tethod can be sidentify as (3)		d) COPD	
c) Clostridium tetani (xv) Choose the causative agent caused for measles a) H1N1 virus c) RNA paramyxo virus b) Retro virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends b) Mass media c) Friends c) Friends b) Mass media d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-18 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (3)	The state of the s	23.2	
(xv) Choose the causative agent caused for measles  a) H1N1 virus b) Retro virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents b) Mass media c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-18 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xv) Copper T method can be identify as a) Mechanical family planning method d) Hormonal contraceptives			
a) H1N1 virus c) RNA paramyxo virus d) None of these (xvi) Identify the component that help to learnt life style a) Parents c) Friends b) Mass media c) Friends d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives  (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)			
c) RNA paramyxo virus (xvi) Identify the component that help to learnt life style  a) Parents b) Mass media c) Friends d) All of these (xvii) Demography can be define as  a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (xi) None of these (xi) Hores (xi) All of these (xii) All of these (xii) All of these (xiii) All of these			
(xvi) Identify the component that help to learnt life style  a) Parents c) Friends b) Mass media d) All of these (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population c) Statistical analysis of human population d) Statistical report of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (xxi) All of these b) Mass media d) All of these b) Statistical study of population d) Statistical report of human population d) Statistical study of population d) Statistical report of human population expected to population of State Health Directorate	97.	TAX CONTRACTOR AND STREET	
a) Parents c) Friends d) All of these  (xvii) Demography can be define as a) Statistical study of human population c) Statistical analysis of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days b) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method c) Chemical method c) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B  (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xii) Olays d) Statistical study of population d) Statistical report of human population d) Statistical study of population			
c) Friends (xvii) Demography can be define as  a) Statistical study of human population c) Statistical analysis of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days b) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method c) Chemical method c) Chemical family planning method c) Chemical family planning method d) Hormonal contraceptives  (xx) Copper T method can be identify as a) Mechanical family planning method d) Hormonal contraceptives  (xx) Copper T method can be identify as a) Mechanical family planning method d) Hormonal contraceptives  (xx) Copper T method can be identify as a) Mechanical family planning method d) Hormonal contraceptives  (xx) Copper B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)			
(xvii) Demography can be define as  a) Statistical study of human population c) Statistical analysis of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days b) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method c) Chemical method c) Chemical family planning method c) Chemical family planning method c) Chemical method d) Hormonal contraceptives  (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)	The state of the s		
a) Statistical study of human population c) Statistical analysis of human population (xviii) Identify the COVID-19 incubation period a) 1-10 days c) 1-14 days d) 1-4 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (xx) Statistical study of population d) Statistical report of human population d) Statistical study of population d) Statistical report of human population d) Statistical report of human population elements of human population d) Statistical report of human population elements of human population d) Statistical report of human population elements of human population		d) All of these	
c) Statistical analysis of human population (xviii) Identify the COVID-19 incubation period  a) 1-10 days c) 1-14 days b) 1-18 days c) 1-14 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions)  3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (xx) Statistical report of human population (d) Example of the state of the s		h) Statistical study of population	
(xviii) Identify the COVID-19 incubation period  a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as  a) Behavioural method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions)  3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (3)			on
a) 1-10 days c) 1-14 days d) 1-4 days (xix) Calendar method can be identify as a) Behavioural method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B (Short Answer Type Questions)  3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)		a) statistical report of Haman populati	OII
c) 1-14 days (xix) Calendar method can be identify as  a) Behavioural method c) Chemical method c) Chemical method d) Hormonal contraceptives (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method b) Natural family planning method d) Hormonal contraceptives  Group-B (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)		h) 1-18 days	
(xix) Calendar method can be identify as  a) Behavioural method c) Chemical method d) Hormonal contraceptives  (xx) Copper T method can be identify as a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B  (Short Answer Type Questions)  3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (3)		TAX TO BE TAX TO SELECT THE SELEC	
c) Chemical method (xx) Copper T method can be identify as  a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives    Group-B  (Short Answer Type Questions)  3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (3)			
c) Chemical method (xx) Copper T method can be identify as  a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives    Group-B  (Short Answer Type Questions)  3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate  (3)	a) Behavioural method	b) Natural family planning method	
(xx) Copper T method can be identify as  a) Mechanical family planning method c) Chemical method d) Hormonal contraceptives  Group-B  (Short Answer Type Questions)  3 x 10=30  2. Describe waste collection method 3. Describe the functions of State Health Directorate (3)			
c) Chemical method d) Hormonal contraceptives  Group-B  (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method (3) 3. Describe the functions of State Health Directorate (3)	(xx) Copper T method can be identify as		
c) Chemical method d) Hormonal contraceptives  Group-B  (Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method (3) 3. Describe the functions of State Health Directorate (3)	a) Mechanical family planning method	b) Natural family planning method	
(Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method (3) 3. Describe the functions of State Health Directorate (3)			
(Short Answer Type Questions) 3 x 10=30  2. Describe waste collection method (3) 3. Describe the functions of State Health Directorate (3)			
<ul> <li>2. Describe waste collection method</li> <li>3. Describe the functions of State Health Directorate</li> <li>(3)</li> </ul>			
3. Describe the functions of State Health Directorate (3)	(Short Answer	Type Questions)	3 x 10=30
3. Describe the functions of State Health Directorate (3)			(3)
4. Describe air pollutants (3)		te	
ATT			(3)
5. Describe the symptoms of drug abuse or misuse (3)			
6. Explain the reason of food ripening. (3)	b. Explain the reason of food ripening.		(3)

7. Explain clinical presentation of COVID-19.	(3)
8. Explain water soluble vitamine	(3)
9. Describe QALY	(3)
10. Describe objectives of National Mental Health Programme	(3)
11. Explain mode of transmission of malaria	(3)
OR	
Explain mode of transmission of leprosy	(3)
Group-C	
(Long Answer Type Questions)	5 x 6=30
12. Explain the following terms with an example: Incubation period, Toxins ,Endotoxin Zoonotic.	, Pandemic, (5)
13. Discuss the importance of breastfeeding	(5)
14. Describe Health Indicators	(5)
15. Describe private and public health system in India	(5)
16. Analyze the role of pharmacist in prevention of Diptheria	(5)
17. Analyze the role of pharmacist in prevention of Poliomyelitis	(5)
OR	
Analyze the role of pharmacist in prevention of Typhoid	(5)
