

BRAINWARE UNIVERSITY

Term End Examination 2021 - 22
Programme – Bachelor of Pharmacy
Course Name – Social and Preventive Pharmacy
Course Code - BP802T
(Semester VIII)

Time allotted : 1 Hrs.30 Min.

Full Marks : 75

[The figure in the margin indicates full marks.]

Group-A

(Multiple Choice Type Question)

1 x 75=75

Choose the correct alternative from the following :

- (1) Immunosuppressant such as - prevent transplanted organ organs from being rejected in recipients

a) Thrombin	b) Cyclosporine
c) Aspirin	d) None
- (2) Which of the following diseases has been eradicated?

a) Smallpox	b) Rinderpest
c) polio	d) All
- (3) A kind of an injury or damage which results in the premature death of all the nearby cells in a tissue or an organ through Auto lysis is called _____

a) Neurosis	b) necrosis
c) apoptosis	d) cellular sensation
- (4) Which of the following is a viral disease?

a) diphtheria	b) Filariasis
c) leprosy	d) influenza
- (5) _____ is an example of a stimulant.

a) Lorazepam	b) Amphetamine
c) Oxazepam	d) Phencyclidine
- (6) Which of the following is the most essential nutrient for a woman during her initial stages of pregnancy to prevent birth defects?

a) Thiamine	b) folic acid
c) vitamin C	d) vitamin E
- (7) Which of the following vitamin helps in blood clotting?

- a) vitamin A
c) vitamin D
- b) vitamin C
d) vitamin K
- (8) which of the following vitamin deficiency causes beriberi?
a) Vitamin B1
c) vitamin B6
- b) vitamin B2
d) vitamin B12
- (9) Which of the following vitamin functions as both hormones and visual pigment?
a) retinal
c) folic acid
- b) riboflavin
d) thiamine
- (10) Which of the following is a fat-soluble vitamin?
a) vitamin B
c) vitamin B12
- b) vitamin C
d) vitamin D
- (11) Which of the following vitamins serve as a hormone precursor?
a) vitamin A
c) vitamin D
- b) vitamin C
d) vitamin K
- (12) The leading infectious disease killer globally in 2001 was:
a) respiratory diseases
c) Diarrheal diseases
- b) HIV or Aids
d) Tuberculosis
- (13) Breastfeeding is important to an infant's health because....
a) it is not affected by the mothers nutritional status.
c) It decreases the mothers chances of getting pregnant
- b) It transfers immunity against certain infectious diseases.
d) all of the these
- (14) The primary objective of immunization program is to
a) prevent infection
c) prevent further transmission of the disease agent
- b) prevent disease
d) all of the these
- (15) The most important requirement of a vaccine is
a) safety
c) ability to stimulate antibody production
- b) ability to stimulate antibody production
d) the proportion of infectious prevented
- (16) The problems related to nutrition of nutrients is called
a) malnutrition
c) insolubility of nutrition
- b) solubility of nutrition
d) balancing of nutrition.
- (17) Which of the following is a set of bacterial diseases?
a) Malaria, polio, mumps
c) Mumps, cholera, typhoid
- b) Plague, leprosy, diphtheria.
d) measles Tuberculosis Tetanus
- (18) What is the standard treatment of Cholera?
a) ORS replacement therapy
c) Trimethoprim sulfamethoxazole
- b) Tetracycline antibiotics
d) Diuretic drugs
- (19) What is the full frame of SARS?
a) Severe acute respiratory syndrome
c) Severe actual respiratory symptoms
- b) Severe acute Respiratory symptoms
d) Serious acute respiratory syndrome
- (20) Ebola virus disease is a type of....

- a) viral hemorrhagic fever
c) plague
- b) Avian Influenza
d) viral respiratory illness
- (21) Incubation period of Ebola virus is
- a) within an hour
c) within 48 hours
- b) 2 to 21 days
d) 2 to 7 days
- (22) what are the top three modifiable risk factors for developing cancer?
- a) a. Tobacco use, excess body weight, alcohol intake
c. Tobacco use Sun / UV exposure, alcoholic use
- b) b. Tobacco use, cancer-causing pathogens, physical inactivity
d) d. Tobacco use, Sun / UV exposure, excess body weight
- (23) Which of the following drug functions as a CNS depressant?
- a) amphetamine
c) opium
- b) caffeine
d) cocaine
- (24) Compulsive drinking is also called _____
- a) Dipsomania
c) Trichotillomania
- b) Pyromania
d) Dyslexia
- (25) Filarial larvae can be collected from man's
- a) peripheral blood at midnight
c) smears of intestinal contents
- b) smears of spleen
d) biopsy of liver
- (26) Which of the following coronavirus is has goes to thousands of deaths around the world as an emergent virus?
- a) MERS
c) OC43
- b) SARS
d) HKU1
- (27) Chikungunya is primarily spread by
- a) bacteria
c) protozoa
- b) viruses
d) mollusc
- (28) Trophozoites, schizonts and gametocytes of all the malarial parasites are seen in the peripheral blood smear except;
- a) P. falciparum
c) P. Ovale
- b) P. malariae
d) P. vivax
- (29) Which of the following can repel mosquitoes
- a) banana
c) citronella
- b) chili
d) garlic
- (30) What is the most common symptom of high blood pressure?
- a) racing heartbeat
c) high body temperature
- b) fatigue
d) It has no symptoms that you notice
- (31) Gestational diabetes is diagnosed by
- a) Glucose tolerance test
c) random blood sugar
- b) fasting and postprandial blood sugar
d) 24 hours blood glucose profile
- (32) Vibrio Cholera is a motile bacterium. Which belong to the group of
- a) Lophotrichous
c) Monotrichous
- b) Peritrichous
d) Amphitrichous
- (33) What is /are the Primary goals of oral replacement therapy?

- a) replace lost water and electrolytes b) kill vibrio Cholerae
 c) slow down the heart rate d) prevent transmission of the vibrio cholerae
- (34) Which Laboratory test is the criteria standard for diagnosis of viral community-acquired pneumonia in adults?
 a) viral culture b) Rapid RSV test
 c) Rapid antigen testing d) nasal swab test
- (35) World's AIDS day was observed on which day?
 a) 30th November b) 2nd December
 c) 1st December d) 3rd December
- (36) Which body is responsible for formulating policy and implementing programs for prevention and control of HIV in India?
 a) AIMS b) IIM
 c) IIT d) NACO

 a) 24th March b) 7th April
 c) 24th April d) 14th November
- (38) World Health Organization recommended a control strategy for TB known as:
 a) dots b) morphine
 c) gene therapy d) MCT
- (39) NLEP was launched in...
 a) 1983 b) 1980
 c) 1985 d) 1990
- (40) The indicator is to decrease the visible disabilities to less than one per one lakh population in the community in NLEP is by-----
 a) 2030 b) 2015
 c) 2020 d) 2025
- (41) Under program NPCB Vision 2020 is..
 a) the right to sight b) the right to sight
 c) BOTH d) NONE
- (42) Vaccine under UIP..
 a) BCG b) DPT
 c) OPV d) All
- (43) Measles Rubella vaccine was introduced in
 a) 1985 b) 2017
 c) 2018 d) 2005
- (44) Mission IndiraDhanush was launched in
 a) 2014 -15 b) 2010-12
 c) 2017-18 d) 2009-10
- (45) National program for prevention and control of deafness was launched in
 a) 2005 b) 2007
 c) 2010 d) 2015
- (46) 24/7 call center receive disease alerts all across the country on a toll-free number is..

- a) 1075
c) 1096
- b) 108
d) 1086
- (47) Nikshyaposhakyojan is centrally sponsored scheme under..
- a) National Health Mission
c) National rural Health Mission
- b) National Urban Health Mission
d) None
- (48) Full form of Dot..
- a) Directly observed treatment
c) documental observed treatment
- b) directional observed treatment
d) all
- (49) TB is caused by..
- a) virus
c) protozoa
- b) bacteria
d) fungi
- (50) The programs to get total reproductive health as a social goal of national level are called
- a) family organization
c) Family Care
- b) Family Planning
d) reproductive care
- (51) which of the following is used for grading protein energy malnutrition?
- a) Ballard's scale
c) Bishop scoring
- b) Gomez scale
d) Krammer's rule
- (52) Which type of the following food is rich in omega-3 fatty acids?
- a) oily fish
c) pork
- b) chicken
d) egg
- (53) Which of the following food item believed to be complete meal or balanced diet?
- a) vegetables
c) milk
- b) fruits
d) honey
- (54) Which one of the following is the activity of the family welfare program?
- a) malnutrition program
c) IUD program
- b) child marriage
d) one child One Nation policy
- (55) Which is the first state in India to recognize the family web planning to Nation planning?
- a) Kerala
c) Karnataka
- b) Goa
d) Tamil Nadu
- (56) What is the additive drug in tobacco?
- a) ethanol
c) ammonia
- b) nicotine
d) tar
- (57) Which of the following is not an effect of smoking during pregnancy?
- a) low birth weight, leading to breathing and other health problems
c) Birth defects such as missing limbs or malformed ears
- b) premature birth, leading to breathing and other health problems
d) Learning and behavior problems later in childhood
- (58) Mosquito responsible for malaria transmission
- a) Aedes aegypti
c) Anopheles
- b) Aedes albopictus
- (59) The term ageism was coined by

- a) Robert Butler
c) Dr. O. P. Sharma
- b) Ignatz leo nascher
d) Dr. Sharad Gokhale
- (60) About 64/1000 elderly persons in rural areas and 55/1000 in urban areas suffer from one or more disabilities the most common disability among the elderly in India is
- a) Locomotor disability
c) hearing disability
- b) visual disability
d) speech disability
- (61) which of the following statements about the Deen Dayal upadhaya grameen kaushal aya yojana is not correct?
- a) It is a placement linked skill training program exclusively rural girls
c) It aims to convert india's demographic surplus into a demographic dividend
- b) It is a generational poverty alleviation program
d) All are correct
- (62) The ministry of communication has recently launched a pan india scholarship program for school children called 'Deen Dayal Sparsh Yojana'. The objective of the scheme is to increase the reach of
- a) Philately
c) Music
- b) Sports
d) Fashion designing
- (63) Which state has been named first among states for its performance under the Pradhan mantri surakshit matritv abhiyan in india?
- a) Madhya Pradesh
c) Tamil nadu
